Networking the Networks

Why a Network of Networks?

- Framework for collaboration
- Similar challenges
- Facilitate link to global networks

Together Everyone Achieves More!

- [African Centre for eHealth Excellence](#) (ACFEE)
- [Asia eHealth Information Network](#) (AeHIN)
- [African Alliance of Digital Health Networks](#) (AA)
- [Better Immunization Data Learning Network](#) (BLN)
- [Global Digital Health Network](#) (GDHN)
- [Pacific Health Information Network](#) (PHIN)
- [Red Centroamericana de Informatica Salud](#) (ReCAINSA)
- [Red Americana de Cooperación para la Salud Electrónica](#) (RACSEL)
- [Routine Health Information Network](#) (RHINO)

Be Collaborative!

Design with the user

Understand the Existing Ecosystem

Design for Scale

Build for Sustainability

Be Data Driven

Use Open Standards, Open Data, Open Source,
and Open Innovation

Reuse and Improve

Address Privacy & Security

Be Collaborative

Collaborate and peer learning

DIGITAL INVESTMENT PRINCIPLES

1. Collaborate

Collaborate to align investments with national digital health strategies.

2. Invest in national plans

Prioritise investments in **national plans that incorporate “digital global goods”** and avoid bespoke systems.

3. Enable sustainable investment

Engage early to **determine and quantify long-term costs** of operating, maintaining, and supporting digital health systems for sustainable country ownership.

4. Track & measure

Track investments, progress, learnings and successes in digital health systems in a transparent manner.

5. Strengthen skills

Strengthen donor technical skills and core capacities, including awareness of the Principles for Digital Development.

6. Creation and evolution

The **creation and evolution** of a country's national digital health strategy, policies and regulatory framework. Strategies include components such as architecture, standards, investment frameworks, privacy protection, and detailed operational and monitoring plans.

7. Maturity continuum

Systems at a level appropriate to the country's progress along the **digital health maturity continuum**.

8. Country capacity

Sustainable country capacity for digital health leadership, governance, implementation, oversight, global good adoption, and donor coordination.

9. Global goods

Scalable, sustainable, accessible, interoperable, and evidence-based **digital health global goods** that meet country priorities.

10. Information and peer-learning

Diverse stakeholder **information-sharing and peer-learning networks** at country and regional levels to foster coordination and alignment of implementation activities.

Asia eHealth Information Network (AeHIN)

- ★ A pool of health and IT professionals from South and South-East Asia committed to promote better use of ICTs to achieve better health.
- ★ Facilitates capacity building via identifying and filling gaps in national health information foundations: Governance, Architecture, Program Management, Standards and Interoperability.
- ★ A not-for-profit incorporated in Hong Kong and maintains secretariats in Manila and Bangkok.

Vision: Interoperable digital health systems for universal health coverage in Asia

Mission: Promote peer-learning, peer-assistance and knowledge exchange to strengthen digital health via network approach

CO-ORDINATION

making people or things work together by putting them in order to make a predetermined whole

CO-OPERATION

willing to give help
willing to receive help

CO-PRODUCTION

what could we create with what we have to meet... our needs
a very different conversation

When we help friends, friends will help us

- The Central American Health Informatics Network, RECAINSA, is a network formed by Central American volunteers, mostly technicians and professionals working in the health sector and information technologies, which emerged in 2013 with the intention of supporting national strategies for digital health and generate spaces for the exchange of experiences and best practices in both the public and private sectors.
- The overall objective of Central American Health Informatics Network is to strengthen national and subnational digital health strategies in the countries of Latin America region
- The strategic lines are as follows
 - Strengthening the eHealth Governance.
 - Creation of Training of human resources in digital health.
 - Generation of Spaces for exchange and dissemination of knowledge and best practices

CENTRAL AMERICAN HEALTH
INFORMATICS NETWORK

- How to connect?
 - Social Networks Channels: Facebook, LinkedIn, Twitter and YouTube
 - Web Site - <https://recainsa.org>
 - Mail List - info@recainsa.org

- How to participate?
 - Our network is an Open Network and the requirement is to participate in one of our two groups in Facebook and/or LinkedIn.
